Below is a list of the included files in your Dropbox folder and a brief description of each intended use. This is to help you best choose the appropriate file for a given project. If a file is needed that is not included in this list, please contact us. We will happily accomodate you.

.ai

Adobe Illustrator. Native vector file for your logo. Used by designers, printers, and promotional industries. Can only be opened with Illustrator.

.pdf

Portable Document Format. Your logo is a vector .pdf and can be resized without losing quality. Used and accepted by just about everyone and is one of the widely recognized file types. Can be opened with Adobe Reader/Acrobat.

.eps

Encapsulated PostScript. A vector format used by designers, printers, and promotional industries. Can be placed into Word documents and resized without losing quality.

.svg

Scalable Vector Graphics. Can be used in web as well as print. Mainly opened using image editing software.

.jpg

Image file format. Most familiar and used file format. Your file is 300dpi. While it is considered high resolution, .jpg files will lose their quality if they are stretched over their intended size. Can be viewed on any computer with a native photo viewer.

.png

Portable Network Graphics. Mainly used for web as it allows for a full range of color and size compression. Will lose quality if over stretched. Can be viewed by most photo viewers.
